25X1A

1. Priznai: Electrical power was supplied via overhead power lines from Kaunas. Water supply was derived from wells. A brewing company was the only industrial installation.
2. Mantympole: A hydroelectric plant located on Sesupe River, which passes through the city, supplied electrical power. Water supply came from wells. A large sugar refinery was located several kilometers to the southwest of town. A military barracks consisting of five or six brick buildings, three stories in height, was located south of town. One regiment of infantry was permanently stationed there during the days of the Lithuanian Republic.
3. Pliviskiai: Electrical power was supplied by a local hydroelectric plant located on Pilve River.
4. Krosna: Electrical power was supplied by power plants attached to two saw mills located south of town.
5. Railroad Gauges:
 - (a) Siauliai - Birnai: single 75 centimeter track.
 - (b) Panevezhis - Anyksciai - Utena: narrow gauge.
 - (c) Jonava - Ukmerge: narrow gauge.
 - (d) Radviliskis - Taurage: standard gauge.

- end -
